Eso sword and shield sorcerer list chart pdf

Balance: Trades health for magicka. Though it also costs more. 20.10.2019 Updated the Build for the DRAGONHOLD DLC, Elsweyr Chapter. Also provides a small shield to allies. Aggressive Warhorn: Your main Ultimate, to buff the group with 10% more max resources and crit damage boost. You can also visit the Buff Food and Drinks Overview Page for more information on all food and drinks. Nord Argonian Imperial Orc Redguard Dark Elf Potions For hard content I recommend using crafted or crown store Tri-Stat potions. Be careful though, you will drop block for half a second. To be fully ready I recommend trying to get most of these sets and confirm with your raid leader what combinations you need them in. Mundus Stone The Lord is a good Mundus Stone to increase maximum Health. Heavy Attacks restore a big amount of stamina, if you hit an off-balanced enemy it gives twice the amount back. The Sorcerer Tank Build Capacitor is optimized for Dungeons & Trials. Other good skills: Empowered Ward: The main point of this skill is so your group members receive Minor Intellect, increasing their Magicka Recovery. Dark Deal Spell Symmetry Orbs (Undaunted skill) Heavy Attacks Potions Choosing an Argonian as a race for your tank will also increase sustain due to the Resourceful racial passive. Skills Sorcerer Tank Build Make sure to adjust your skills to your needs, this setup is not maced into stone, make sure to adjust skills depending on the situation of a fight. Dungeon Build Tank/Support Build Heavy Armor Great Sustain Easy survivability Good Shielding Insane Healing Insane Resource Management Concuss enemies for 5% more dmg Trials & Dungeon Setup Sorcerer Tank Build In this section we are going to take a look at the ESO Sorcerer Tank Build setup. You can learn more about these sets in the Tank Sets article. This in combination with Spell Symmetry allows you to have endless sustain. If you have 500 ultimate points saved up you get an additional 25 seconds of Major Vulnerability, increasing the total time to 35 seconds! Backbar Weapon: We use a Frost staff as a base backbar weapon, because of the Ancient Knowledge passive. You don't need to permablock, try to find time to do Heavy Attacks in your rotation. You can apply Major Vulnerability with Turning Tide and then activate an ultimate to proc Nazaray to get a very extended duration on the Major Vulnerability debuff. 12.05.2022 Updated the Build for the HIGH ISLE CHAPTER. Potions are also a key to manage your resources well, I recommend using Tri-Stat potions to regain all three resources at the same time. Buffed: In combat, Raid Target Dummy buffs, Tri-Stat Potions, Pet, Balance active. Flex Spot: If you want more Shock abilities that concuss enemies to gain 5% damage for your group members, you could swap out the Clannfear to open up two spots, one for Liquid Lightning and the other one with something else. While we have a pet active, we also gain 8% more overall Health due to the Expert Summoner passive. Inner Rage: This is your ranged taunt, in case you can not get to a mob fast enough. You can read more in the skills section of the build. The Lord Mundus Stone (Max Health) Race You can find more about racial passives in the ESO Race Overview page. Energy orb: This skill helps to support your other group members with better sustain when they activate the Synergy, usually Healers already run those. For more information on consumables on where they are obtainable and what price they can be bought for please visit the Longfin pasty with Melon Sauce and Bewitched Sugar Skulls. 18.10.2021 Updated the Build for the DEADLANDS DLC, Blackwood Chapter. You could also slot Temporal Guard here to gain free 5% damage mitigation. 29.10.2020 Updated the Build for the MARKARTH DLC, Greymoor Chapter. Also applies Major Resolve, increasing your resistances by a lot for a long duration. Unbuffed: Out of combat, buff-foot active. Shield Discipline: Only use this Ultimate when you have no resources available, otherwise I always recommend using the Horn. When you activate it you gain 40% block mitigation for a short time, reducing incoming damage by a lot. These here are listed in no particular order: Ebon Armory, Battalion Defender, Torug's Pact, Turning Tide, Plague Doctor, Powerful Assault, Roar of Alkosh, Akaviri Dragonguard, Claw of Yolnahkriin, Perfected Claw of Yolnahkriin, Beekeeper's Gear, Alessian Order, Eternal Warrior, Brands of Imperium, Foolkiller's Ward, Drake's Rush, Lunar Bastion, Leeching Plate, The Worm's Raiment, Hircine's Veneer, Morag Tong, Saxhleel Champion, Perfected Saxhleel Champion, Crimson Oath's Rive, Puncturing Remedy, Perfected Puncturing Remedy, Tremorscale, Lord Warden, Bloodspawn, Mighty Chudan, Swarm Mother, Earthgore, Nazaray, Bloodlord's Embrace, Death Dealer's Fete, Torc of Tonal Constancy. Because of the Synergies you pick up give you back whatever stat is higher. You can change this to your liking, if you do not need that much health, get more stamina. And the heal from the Clannfear can actually critical hit too, increasing the heal further. Basically increasing the damage output for the whole group for a long duration. I'm trying to build a character that is like a fighter-mage from dungeons and dragons. Our max Stamina is a bit higher than our Max Magicka, that is because you will get resources depending on your higher max Stamina or Magicka. Pierce Armor: Your main taunt, also debuffs the enemy with Major Breach, reducing Spell and Physical Resistance by 5948. Keep in mind there is a huge variety of different tank builds out there that synergize well depending on your group setup. Those abilities synergize really well together and can basically be used infinitely. Energy Orb is a skill that Healers use to throw into the group. Mages Guild: Mage Adept, Everlasting Magic, Magicka Controller Undaunted: Undaunted Command, Undaunted Mettle Racial: All Alchemy: Medicinal Use Attributes You have to make sure to have a bit more Stamina than Magicka. Important: Warfare Tree: This tree gives you a mix between damage, healing and damage mitigation. You could slot this on the front bar to gain 5% free damage mitigation. Click the tab below to open the allocation. Heroic Slash: Debuffs the enemy with a 5% damage reduction debuff and also gives you Minor Heroism, increasing your Ultimate generation. Light Armor: If you have spare skillpoints, max out this skill line too. Make sure to bookmark the link as I will keep updating the build for each new Update of ESO. IMPORTANT: Be aware that when you use the skill, that all incoming shields and healing will be cut in half for the next 4 seconds. You can ask a friend to craft Fortified Brass and Torug's Pact for you. Related Topics FacebookTwitterRedditTumblrPinterest Create your own build with the ESO Build Editor. Presets are also provided for each of the allocations below. Just keep in mind, when you use Dark Deal, you drop block for a split second! Dark Deal also heals you for approx. Can someone help? Gear Sorcerer Tank Build You can find more good sets for tanking in the "Must Have Tanking Sets" Article. Tags: Sorcerer Health Tank, Sorc Tank Build PvE, 08.05.2020 Updated the Build for the GREYMOOR CHAPTER. 20 Magicka, 20 Health, 24 Stamina Resource Management for the ESO Sorc Tank Build Balance returns Magicka and Dark Deal returns Stamina, basically enabling unlimited sustain for us. You can find a few images here and an image of the outfit editor dye station below. Fortified Brass: Craftable Torug's Pact: Craftable Night's Silence: Craftable Plague Doctor: Deshaan, Guildstore The sets listed below are all viable, in case you want to mix things up a bit. And because we are a tank, Stamina is definitely more important. Perks: Hovering over each perk will give you insights on what it does. On top of that we also have the Summon Unstable Clannfear that heals us for 35% of our maximum Health, which is around 15k Health non-crit. Work your way from top to bottom in your allocation. Where can I get the gear? With Balance we have endless Magicka sustain and Dark Deal covers the Stamina sustain. Claw of Yolnahkriin, 2x Nazaray with Bewitched Sugar Skills on a Nord. Longfin pasty with Melon Sauce (Max Health+Max Stamina+Max Magicka) Bewitched Sugar Skulls The Bewitched Sugar Skulls is a slightly more advanced version that has a bit higher stats and also includes health recovery. However, you can also use other available Mundus Stones if you don't need the extra Health. 03.03.2021 Updated the Build for the FLAMES OF AMBITION DLC, Blackwood Chapter. Begimner Gear Setup This beginner setup is here for people that do not have access to the other setup now. Fitness Tree: This tree gives you extra health, sustain and defensive buffs. It is also a well sized shield that you can use to shield hard hitting abilities. 5x Turning Tide, 5x Perf. Bound Aegis allows us to increase block mitigation by an insane amount for a short time. However, you can also use a Lightning Staff or another sword and board if you wish to do so. 20.08.2020 Updated the Build for the STONETHORN DLC, Greymoor Chapter. For an overview of all the Mundus Stones in ESO you can check out the Mundus Stone Overview Page. 10'000 per cast. Further below you will learn how to craft the right potions.
